Convention at Nashville-Much Important Legislation to be Transacted... Former State Conventions.

The State convention of the Travellers Protective Association of America will convene in this city Saturday, May 1st. ext. Delegates will be in attendance from Norfolk, Petersburg, Lynchburg,

hext. Delegates will be in attendance from Noriolk, Petersburg, Lynchburg, and Danville.

At this convention delegates will be elected to the National Convention of the Travellers Protective Association of America, which will be held in Nash-ville, Tenn., next June, and instructed as to how they shall vote on the proposed amendments to the National Constitution and by-laws of the Association, which consists of changes in article 4 section 6, regarding the payment of \$5,000 salary per annum, to the secretary instead of £1.10, he to pay out of that sum all of the clerical expenses of his office. Article 2, section 3, regarding the payment of indemnities as provided in sections 2 and 3; Article 2, section 4, regarding expenses of the National officers; and amendment to place the age of a commercial traveller at from eighteen to sixty years to be eligible to membership in the Association; Amendment to Article 6, regarding the notification from the National agreeary to the Secretaries of the anding the notification from the Na-

inte divisions.

Post 'D," of the Tennessee Division of he Travellers Protective Association of America has offered the following amend-

(President of the Virginia State Division.) meat to the Constitution, namely: Chango Section 1, of Article 2, to read—"Any white person, either male or female, of good moral character, etc., shall be eli-gible to membership." It is intended by to change this section of Article 2 so

est accorded them by he Legislatures of other States.

WHAT THE T. P. A. WANTS.

During the last Travellers' Protective Association Convention at Terre Haute, and, the Chicago Tribune wired President Lee as follows: "What do Commercial Travellers want from railroads, and why should they have it?" In reply. President Lee telegraphed the Tribune as follows: "They want an interchangeable mileage ticket, good all over the lines included in the territory of the Central Passenger Committee, to be sold at two cents per mile, and strictly non-transferable, and a similar ticket in the territory of each of the other Passenger Associations of the United States. They want the friendship, co-operative sympathy and active aid of the railroad companies. They think they ought to have the two cents per mile rate asked for, because it is not unreasonable, most roads having been making the rate for many years.

there is considerable work done, they always find time to enjoy themselves in a jolly and becoming manner. The following places have had the honor of entertaining the Travellers' Protective Association at their National Conventions Denver, Col. 1899; Little Rick, Ark., 1891; Old Point, Va., 1891; Peoria, Ill., 1893, Milwaukee, Wis., 1891; San Antonio, Tex., 1895; Ferre Haute, Ind. 1895; and the next convention will be held at Nashville, Tenn., June 1, 1897. The Tennessee Centennial will be going on at that time, and the committees appointed by the Nashville Post are making preparations to give the members a glorious and hospitable welcome. All the 'boys' remember with pleasure how they were treated by the Nashville delegation at their head-proviers in the Terre Haute house during the last convention, and have a warm place in their hearts for them.

THE VARIOUS STATE CONVENTIONS. (Secretary of Post A.)

THE VARIOUS STATE CONVENTIONS.
The State Conventions have been neld at Richmond, Staunton and Danville. They assembled at Staunton in 1888, and were necessed very hospitable treatment by their Valley friends, and the banquet tendered the delegates at the Virginia house, in that eity, will long be remembered with pleasure by those who participated. In the fall or that year the Virginia Division had the largest number of men on its rolls it had ever had, and at the opening of the Exposition here they were in the parede, five hundred strong, wearing silk hars, light overcoats, and carrying cases. Buffalo Bill desired to be placed at the head of the Drammers Division, and they marched immediately healing his aggregation of celebrities and red skins. Neither of the principles soemed to take any interest in the ceremony, and small wonder for Dainey had been arrested for breaking his promises to Hybernia, and consented under strees of fireumstances, to the marriage. The proceeding against him was then discussed.

Joshua Miller and Lewis Jackson, both colored men, came before Justice of the Peace G. C. Vincent vesterday, at Henrico County Court-house, charged with assaulting and beating Maniy Taylor, another colored man, and brother.

Squire Vincent heard the evidence and fined them "\$1.50 and costs."

The regular meeting of the white teachers of the Henrico Public Schools was held at noon yesterday in teachers' room at Henrico Court-house with superintendent Fussell in the chair.

He introduced Professor Mitchell, of Richmond College, who delivered an interesting and instructive address on the subject of "General Education."

MOST MARVELLOUS BICYCLE.

Draws to It All Other Wheels Within a Radius of Fifteen Feet.

WAS INVENTED BY FRANZ STEUBEN.

The Originator an Eccentric German Me chanical Genius Whose Neighbors Jest About Him-Still His Idea Commands Attention-Being Constructed.

BERLIN, April 19.—The latest and admittedly the most eccentric of bicycle ideas is now being given practical form

tor whose eccentricity has caused his neighbors to heretofore make sport of him. This strange idea is an electromagnetic bicycle, which Steuben claims will be possessed of magnetic power sufficient to draw to itself any other bicycle within a radius of fifteen feet.

Baron Munchiausen himself could have conceived no more curious freak of the imagination than this seems to be, but at the same time the inventor is working away at it, and discusses it as un derstandingly, both from mechanical and electrical standpoints, as if he were Siemens himself, and charged with genius to his finger tips. The attraction of gravitation, he says, is no more certain than will be that of his machine.

This bicycle freak, for it hardly seems anything else, is a machine with a highly charged magnetic frame. Instead of the usual hollow steel tubing of which the ordinary bicycle frame is constituted. This electrical frame will be made of soft from, closely wound with fine copper wire. Attached to the back of the frame, a short distance from the bottom, will be a small, very powerful dynamo. Two wheel, aftached to the rear axle. In-stead of this sprocket wheel, however, there will be a large cog wheel firmly attached to the axle.

HOW TO FIND OUT-

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Samplicost, the great kidney remedy fuinits every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary pussages. It corrects inability to hold urine and enabling pain in passing the urinary passages. It corrects inability to hold urine and scalding pain in passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Not one, but half a dozen visits are needed to see the wonders of the Barnum and Balley Greatest Show on Earth. The wonderful system by which a dozen nels are in progress at the same time, while it insures that every visitor shall be sure of seing a tremendous number of performances, it often prevents one from devoting all that attention to a single feature or startling act that it deserves. For that reason a number of visits are absolutely necessary. Another thing about Barnum and Balley's Show, it has taken its place as one of the most fashionable entertainments of the large cities of the country, the thing which anybody who is anybody is bound to see, as well as all other clauses. Every taste is suited. Do you love horses? There you may see them in hundreds and thousands. Do you love horses? There you will see upward of half a thousand and as many as seventy trained ones performing in one ring at the same time. As for performances the audience are kept in breathless suspense for over-
